INFO

Downpipe Set w/o Cat (SS) was tested and developed together with Slip-On Line (Titanium) system or Evolution Line (Titanium).

For the ultimate in weight reduction, tuning potential, and racing sound, Akrapovič offers stainless steel, cat-less downpipes to make the Giulia Quadrifoglio an even more powerful machine. This setup is intended for dedicated track-day cars and enthusiasts, and it will also add to the overall experience of what's already a stunning performance car for any discerning driver. Delivering great sound, without creating unwanted cabin noise, these beautifully-crafted downpipes offer an upgrade to Akrapovič's Evolution exhaust system.

When installing Akrapovič aftermarket optional down pipes, which are developed for use on closed tracks only, remapping the ECU is mandatory, in order to prevent potential »check engine light« warning signals.

Fitment notice: Optional downpipes only fit to vehicles with engine number ≥ 5074 . For vehicles with lower engine numbers, additional adapter P-X227 is needed.

THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.
