

BMW M240i (F22, F23)

Product Name: **Evolution Line (SS)**

Product code: **MTP-BM/SS/4H**

Approval: EC

MSRP ex. VAT: 2.020,21 €

INFO

The Evolution Line exhaust system will propel the BMW M240i to the next step of performance tuning due to an increase in torque and power. Impeccably designed to fit perfectly within the lines of the car, this austenitic stainless steel system is finished with hand-crafted carbon-fibre tailpipes to increase the visual impact. It has a layout incorporating two central link pipes to replace the stock single version, designed for optimum flow of the exhaust gases. A dual-mode ECU-controlled valve manages the sound levels, which ultimately delivers a deep and fulfilling sporty note as the revs rise. EC-compliant and easy to install, the Evolution Line system is a perfect accompaniment to an already spectacular car.

Please be aware that both part numbers: MTP-BM/SS/4H and E-BM/SS/3 have to be ordered! The system is splitted in 2 codes only because of packaging issues.

Fittment notice:

This system does not fit on vehicles equipped with Otto particulate filter (OPF).

Exhaust fits also on vehicles with X-drive.
