INFO

As the most visible part of an exhaust system, we pay the utmost attention to the tailpipes. Akrapovič has created hand-crafted carbon-fibre tailpipes to enrich the visual enjoyment of the Slip-On or Evolution exhaust systems. Sporting the unique Akrapovič round design, the carbon- version has sandblasted titanium inner parts with a bigger diameter than stock tailpipes to make them stand out from the crowd even more. The new model was unveiled with distinctive Akrapovič design elements, and these beautifully crafted additions are designed to fit perfectly with the carbon- diffuser.

This Carbon Tail pipe set, comes with red/white Akrapovič logo.
