

Lamborghini Huracán LP 610-4 Coupé/Spyder

Product Name: **Slip-On Line (Titanium)**

Product code: **MTP-LA/TI/2**

Approval: W/O

MSRP ex. VAT: 8.322,40 €

INFO

Following the success and experience gained from the Slip-On Line exhaust system that Akrapovič developed for the Lamborghini Gallardo, the new system for the Lamborghini Huracán takes this stunning car to new levels. Precision engineered from a high-grade titanium alloy, which is designed to significantly reduce weight and improve handling, the Slip-On Line has bigger main pipes than the standard system and a specially designed X-part (for cross-flow) in the muffler to reduce back-pressure, increasing power and torque levels right across the rev range. The unique growl from the naturally aspirated V10 engine is improved as the performance grows, delivering a distinctive note that thrills the senses, without any unwanted cabin noise. At lower revs and during cruise operation the valves are closed, producing a deeper and sharper exhaust note, but when the revs rise and the valves open, the full passionate soundtrack of the engine is released to show that the Huracán means business. This exquisite system is perfectly finished with four carbon fibre tailpipes, ensuring that this exhaust looks as good as it sounds and performs. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.
