## INFO

An exquisite car deserves an exquisite exhaust, and the Slip-On Line (Titanium) for the McLaren is certainly that. It is made of special, lightweight, durable, and heat-resistant titanium alloys, all perfectly formed and shaped to fit the car. Bigger tubes deliver optimised gas flow, and the use of ultra-lightweight materials will significantly reduce the vehicle's weight and enhance its handling. A distinctive coating offers an enhanced appearance, and the parts most exposed to heat feature special insulation for protection. With two flawlessly styled and finished handmade carbon-fibre tailpipes, which beautifully complement the titanium pipes, this exhaust is a work of art. It comes complete with a soundtrack that perfectly matches the car's performance, ideally tuned to produce a unique sound colour and the celebrated Akrapovič signature sound.

THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.
