

Mercedes-AMG A 35 (V177) - OPF/GPF

Product Name: **Evolution Link pipe set (SS)**

Product code: **E-ME/SS/1**

Approval: W/O

MSRP ex. VAT: 790,00 €

INFO

Evolution Link Pipe Set (SS) was tested and developed together with the Slip-On Line (Titanium) system.

Offering an ideal upgrade to further the tuning potential of the car, the link pipe set is primarily designed for track use and will release the sporty sound that the engine has to offer. With the elimination of the OPF, the sound levels are increased and the frequency content is improved, providing increased sound, leading to an exhilarating tone, with cracking and burbling being an enjoyable and addictive aural assault on over-run. The change in performance is a noticeable factor when compared to the stock exhaust system configuration, and the difference is perceptible from the driver's and passenger's point of view.

When installing the Akrapovič Evolution Link pipe set, which is developed for use on closed tracks only, remapping the ECU is mandatory in order to prevent potential "check engine light" warning signals.
