

# Porsche 911 GT3/RS (997) 3.6

Product Name: **Evolution Line (Titanium)**

Product code: **S-P0997GT3E**

Approval: W/O

**MSRP ex. VAT: 10.818,59 €**

## INFO

The Akrapovič fully titanium Evolution exhaust system complements the Slip-On muffler and tailpipes with a newly developed exhaust manifold with 100 cpsi sports catalytic converters that guarantee an increase in power and torque, as do the newly developed and optimized pre-mufflers. However, the real plus of this performance exhaust system is the weight reduction, while it maintains the original layout and functionality of the exhaust caps. The weight distribution of the vehicle is improved considerably, and the weight reduction behind the engine and the rear axle enhances the handling. The sound impression in this configuration is somewhat more voluminous and, with opened caps, more aggressive than in the original version.

When installing Akrapovič aftermarket optional link pipes with sports catalytic converters or without catalytic converters, which are developed for use on closed tracks only, remapping the ECU is mandatory. When installing Akrapovič aftermarket exhaust system that was developed for use on closed tracks, we recommend remapping the ECU in order to prevent potential »check engine light« warning signals.

THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.
