INFO

The Akrapovič Evolution Line performance exhaust system takes the performance of the Renault Mégane R.S. to even greater heights. The lower weight of the system over stock improves the car's handling, and together with the increase in power and torque makes this impressive hot hatch an even more thrilling experience. Beautifully crafted from titanium and finished with a unique carbon fibre tailpipe, the Evolution Line system will make the Mégane R.S. stand out from the crowd. When the high-revving engine lets out that distinctive deep and sporty Akrapovič sound, the whole package becomes one for all the senses to enjoy. THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.
