INFO

The tailpipes are the most visible part of the exhaust system, and that's why we dedicate particular attention to them at Akrapovič. In order to satisfy the most discriminating tastes, we've created handcrafted carbon fibre tailpipes. To make our tailpipes stand out from the rest even more, in addition to selecting the finest materials, we also made them larger. This gives your car an even more dynamic look, which can be either elegantly sporty. Installing the tailpipes on the stock system is simple.
